

# Curriculum Vitae

Keiko AOKI, MS.

## Office Address

*International Non-Profit Organization*

**Institute of Environmental Rehabilitation and Conservation (ERECON)**

2987-1 Onoji Machida-shi, Tokyo 195-0064, JAPAN

Tel +81 (0) 42-736-8972 (Office in Tokyo)

hq-erecon@nifty.com (Office in Tokyo)

## Education

**February 2018 - February 2020**

*Graduated from Faculty of Agriculture,  
University of Putra Malaysia, Malaysia,  
Master of Science.*

**April 2005 - March 2010**

*Graduated from School of Agriculture,  
Obihiro University of Agriculture and Veterinary  
Medicine, Japan*

## Career

**April 2025 - Present**

*Expert at the Extension Center, Institute of  
Environmental Rehabilitation and Conservation,  
Japan*

**April 2021 - March 2025**

*Secretary in Head at the Extension Center,  
Institute of Environmental Rehabilitation and  
Conservation, Japan*

**November 2020 - March 2021**

*Secretary in Head at the Administrative Center,  
Institute of Environmental Rehabilitation and  
Conservation, Japan*

**April 2010 - January 2018**

*Consulting Sales,  
Maruwa Biochemical Co., Ltd., Japan*

## Specializations

- Community-based Reforestation
- Education for Sustainable Development
- Participatory Extension Approaches
- Monitoring, Evaluation and Learning, etc.

## Current Projects

*Focusing on promoting the environmental  
education through the development of a  
sustainable system for conservation, rehabilitation  
and utilization of forest resources through natural  
resource utilization, community-based agroforestry,*

*and forest-related cultural practices, in  
collaboration with national and local governments,  
private companies, and research institutes in  
Cambodia. The project aims to support its  
sustainability by diversifying income sources  
through the commercialization of products  
generated from its activities, such as bio-  
briquettes, tree seedlings, and non-timber forest  
products (NTFPs). Participatory extension  
approaches as well as Monitoring and Evaluation  
methods are applied throughout the project,  
enhancing the stakeholder engagement for long-  
term sustainability.*

## Languages

*English / Japanese*

## Publications

*There are some publications, and dominant ones  
are as follows.*

- Aoki, K., Kawabe, K., Pandit, S. and Mihara, M. 2024. Effects of Forest Environmental Education on Awareness and Attitudes of Local Students in Relation to Tree Survival Rates - A School Greening Program in Cambodia. *International Journal of Environmental and Rural Development, ISERD*, 15 (2), 111-122
- Aoki, K., Arimitshu, M., Ueno, T., Kawabe, K., Sekiyama, A, Nakajima, T., Mihara, M., Yamaji, E. and Yamada, S. (alphabetically). 2020. Carbon Storage in Farmland for Global Environment. *Institute of Environmental Rehabilitation and Conservation, Japan*

## Awards

- Award for Global Greening. 2024.  
*Institute of Environmental Conservation and  
Rehabilitation, Japan*
